

TE MID SEM EXAMINATION (MSE) TIMETABLE EVEN 2025-26

Year	TIME	DATE	23-Mar-26	24-Mar-26	25-Mar-26
		DEPT / DAY	MONDAY	TUESDAY	WEDNESDAY
TE	12:30-1:30 pm	CE	Machine Learning	Data Warehousing and Mining / Cloud Computing	Introduction to IoT
	3:00-4:00 pm		Cryptography and Network Security	Data Management and Visualization / Soft Computing	Minor- Cloud Security Incident Response Natural Language Processing Blockchain Technology Soft Computing Industrial Internet of Things
TE	12:30-1:30 pm	IT	Cryptography and Network Security	UI/UX Design	Internet of Things
	3:00-4:00 pm		Cloud Computing	Big Data Analytics/Information Storage and Data Management/ Augmented Reality/Virtual Reality	Minor- Cloud Security Incident Response Natural Language Processing Blockchain Technology Soft Computing Industrial Internet of Things
TE	12:30-1:30 pm	ECE	Artificial Intelligence and Machine Learning	Verilog HDL	Computer Networks
	3:00-4:00 pm		Control Systems	Cloud Computing	Minor- Cloud Security Incident Response Natural Language Processing Blockchain Technology Soft Computing Industrial Internet of Things
TE	12:30-1:30 pm	ET	Wireless Mobile Communication	Microelectronics Circuits	Augmented reality/ Virtual Reality
	3:00-4:00 pm		Digital Communication	Embedded Systems	Minor- Cloud Security Incident Response Natural Language Processing Blockchain Technology Soft Computing Industrial Internet of Things
TE	12:30-1:30 pm	EIE	Industrial Process Control	Industrial Data Communication	Data Science
	3:00-4:00 pm		Electrical Power system	Mechatronics	Minor- Cloud Security Incident Response Natural Language Processing Blockchain Technology Soft Computing Industrial Internet of Things
TE	12:30-1:30 pm	AIML	Advanced Machine Learning	Data Visualization and Analytics/ Responsible AI/ Big-Data Analytics/	Design of Experiments
	3:00-4:00 pm		Deep Learning	Natural Language Processing/ Cloud for AI	

TE	12:30-1:30 pm	AIDS	Software Engineering	Data Visualization and Analytics/ Data Analytics/ Responsible AI/ Cloud Computing	Design of Experiments
	3:00-4:00 pm		Deep Learning	Business Intelligence/ Cognitive Intelligence/Data Privacy and Security	
TE	12:30-1:30 pm	CYBER SECURITY	Digital Forensics	Wireless and Mobile Security/ Malware Analysis/ Data Analytics for Fraud Detection/ Firmware Security	IoT Architecture and Protocol
	3:00-4:00 pm		Vulnerability Assessment and Penetration Testing	Data Centre Security/ Next generation Firewall Design / Ethics for Cyber Security/ Ecommerce and Cyber Space	
TE	12:30-1:30 pm	CSBS	Cloud, Microservices and Applications	Artificial Intelligence	Cognitive Science & Analytics/ Cryptology
	3:00-4:00 pm		Information Security	Financial & Cost Accounting	Quantum Computation & Quantum Information/ Advanced Social, Text and Media Analytics
TE	12:30-1:30 pm	MBA Tech	Generative Adversarial Networks	PEC-I:-Recommendation Systems	
	3:00-4:00 pm		Computer Vision		

Dr. Bhawana Garg
CA/IA In-charge

Dr. Mukesh D. Patil
Principal
